

STOP

**GNAWING PESTS, PETS,
AND OTHER DESTRUCTIVE ANIMALS WITH**

ARMOR-DURA™
FLEXIBLE PROTECTIVE FINISH

ARMOR-DURA'S flexible protective finish was designed to protect wires, cables, hoses, pipes and more from damage caused by animals chewing, gnawing, biting or scratching the surface.

When properly applied, **ARMOR-DURA'S** flexible protective finish creates a light-weight, non-conductive, flexible, super hard film or barrier that stops animals from eating through or penetrating the surface, without injury to the animals.

ARMOR-DURA is versatile:

- For indoor and outdoor use
- Long lasting
- Environmentally friendly active ingredients
- Non-conductive, corrosion, UV, and oxidation resistant
- Absolutely harmless to animals

ARMOR-DURA™

FLEXIBLE PROTECTIVE FINISH

STOPS GNAWING PESTS, PETS, AND OTHER DESTRUCTIVE ANIMALS

ARMOR-DURA™ Flexible Protective Finish is specially designed to protect wood, rubber, plastics, wires, cables, hoses, pipes, etc., from potential damage caused by biting, gnawing, pecking, scratching and/or chewing by rats, mice, gophers, squirrels, armadillos, raccoons, possums, dogs, cats, rabbits, bears, birds and/or other destructive animals.

When properly applied, **ARMOR-DURA™ Flexible Protective Finish** creates a light-weight, non-conductive, flexible, super hard film, or barrier, that stop animals from eating through or puncturing its granite-like surface, without injuring the animals.

ARMOR-DURA™ Flexible Protective Finish also affords exceptional protection from sunlight, rain, wind, moisture and temperature changes.

YOU CAN RELY ON ARMOR-DURA™ TO:

- **STOP** pets from accidentally electrocuting themselves.
- **STOP** animals (particularly armadillos) from gnawing through auto brake hoses and releasing brake fluid.
- **STOP** animals from biting into computer, television, fiberoptic and utility cables and wiring.
- **STOP** gophers, wood chucks, moles, voles and other burrowing animals from destroying water pipes and underground sprinklers.
- **STOP** squirrels, possums, raccoons and the like from chewing into attics, eaves, bathrooms, kitchens, etc.
- **STOP** mice, chipmunks and rats from gnawing through plaster board, sheet rock, fiber board, plywood, paneling, etc.
- **STOP** non-metallic garbage pails, cans and bins from being destroyed.
- **STOP** wild animals from chomping into barbecue wires and hoses.
- **STOP** woodpeckers, piculets, flickers, etc., from pecking into trees and poles.
- **STOP** puppies and kittens from chewing wooden and plastic banisters, railings, gates, and fences.
- **STOP** bears and other destructive critters from ruining sheds, mail boxes, bird feeders, siding, gazebos, garbage bins, etc.
- **STOP** horses, cattle and livestock from cribbing on fences, stalls, gates, barns, etc.
- **STOP** animals almost anywhere from destroying items by eating, chewing, biting, scratching, pecking, licking, etc.

Can be used even over soft metals and alloys.

Environmentally friendly active ingredients

Contains an extremely bitter, pungent, patented aversive agent

Contains the world's 2nd and 3rd hardest known substances, in conjunction with specialty chemicals

Contains active ingredients that are almost diamond-like in hardness

Color: gray or black

Non-conductive, corrosion, UV, and oxidation resistant

Absolutely harmless to animals

Long lasting

Standard sizes: 8 FL OZ (0.5 PT) & 32 FL OZ (1 QT) • Larger sizes available on request.

Exempt from EPA registration • Patent and patents pending

Can be supplied in: polyurethane, modified epoxy, acrylic or alkyd base.
