

X-PUNGE™

For better memory and mental clarity,
as well as increased energy,
you should be taking X-Punge.™

X-Punge™ is an all-natural chelating breakthrough, which helps neutralize many toxic elements that can build up in the brain and in other parts of the body.

These elements, which include: aluminum, antimony, arsenic, barium, beryllium, cadmium, lead, mercury, thallium, tin and thorium, among others, can often cause a build-up of gunk in the brain. This build-up can result in serious consequences, including cognitive impairment and various metabolic disorders. It is not possible for the brain and the body to be in a state of wellness, if toxic elements are preventing them from being in balance.

X-Punge is designed to cross the blood/brain barrier, thus enabling it to facilitate proper cerebral metabolism and blood flow for appropriate elimination of toxic elements. When taken with alcoholic beverages, the blood-brain barrier is overcome even further, thus producing truly superior results.

The toxic elements that **X-Punge** helps to remove are often found in paints, amalgam dental fillings, tattoos, mordants, pesticides, fungicides, migration from plastic containers, antiperspirants, preservatives, antiseptics, antacids, contaminated fish, grains, non-organic fruits and vegetables, pickled foods, baked goods, etc. These toxic elements can negatively affect the central nervous system, cardiovascular system, gastrointestinal system, lungs, kidneys, liver, endocrine glands and bones, as well as the brain.

X-Punge is readily absorbed by the body, due to the catalytic effect of its quality ingredients. These ingredients are among the highest quality available, including some that are zone refined.

X-Punge is GMO, soy and gluten free.

X-Punge works synergistically with **Plaque-Out™**, a companion product that is used to help clear the brain of harmful plaque deposits.

For optimal results, it is recommended that a comprehensive multi-mineral formula be taken when using **X-Punge**. The multi-mineral formula should be taken four hours or more after taking **X-Punge**. Cognitive enhancers may be taken with **X-Punge**, if desired.

By helping to remove toxic elements, **X-Punge** helps bring the brain and the body back into balance, resulting in improved memory, better mental clarity and increased energy.
